

I listen to K-Love radio station on 88.7 FM and 89.7 FM in my area. I chose to listen to this station over other local stations because of its Christian programming. It is family oriented, uplifting and has a positive message for all listeners. It is important that KLOVE be given priority over FM translator services which it currently uses to broadcast. This station encourages listeners to live life in a morally responsible and wonderful way. I am also a financial supporter of this radio station and believe in the message and music that it broadcasts. We live in a culture today that does not always promote respect and encouragement and KLOVE does both.
